Notes:

1. “Course Correction” is NOT a second add/drop period. Except for the following situations, we do NOT accept correction applications:
 - Course was closed or not approved, resulting in insufficient credits.

- Students accidentally enrolled in the same course more than once.
 - Students accidentally selected the wrong course code for the same course.
2.  **Minimum Credit Requirement:** Students who do not meet the minimum number of credits must add courses to the minimum required credits within the Course Selection List Confirmation and Final Corrections period. Those who do not meet the minimum number of credits will be suspended from school.
 3. To avoid wasting resources, we do NOT accept correction applications from students who forget to withdraw from a waitlisted course.
 4. Students who submit a correction application should check their course selection results online again after the correction period to ensure that the correction has been completed.
 5. Students who have not yet completed the application for an “Individual Studies” advisor must complete the application during the course correction period. Students who fail to complete the application within the designated period will not be allowed to apply afterward, and the course cannot be dropped.
 6. Students who complete the “Checking Course List & Final Correction” will be granted 10 extra priority weights for the following semester. Students who do not complete the confirmation will be subject to the course selection results recorded in the system, and no objection will be accepted afterward.
