Credits of course enrolled : 4.0

Priority weight remained : 110

TKE2031_ Priority weight

Priority weight can be adjusted any time during the course selection period. The final result depends on the latest adjustment made in the system. Priority weight marked as "0" can still lead to successful course selection or making the waiting list. Priority weight left blank will be seen as giving up the course enrollment.

※ Selection and Distribution Mechanism :

(1) Student intended for the course; (2) Students from the hosting department/program; (3) Students with double/minor major in the hosting department/program; (4) Students from the hosting college; (5) Students from other colleges; (6) Priority weight (senior students shall prevail with the same priority weight); (7) Random selection when the number of students enrolled exceeds course max capacity.

? Academic Research Ethics (conducted in English): (1) International students; (2) Priority weight (senior students shall prevail with the same priority weight); (3) Random selection when the number of students enrolled exceeds course max capacity.

Department	Course code	Class	Course title	Grade level	Required/Elective	Capacity limits	Student enrolled	priority weight	Student's serial number	Admission number	Selected successfully	Give up filling the vacancy
Common Course for Postgraduate Students	A003E001		Research ethics	1	Required	80	135	130			No	No

Notes for Filling Vacancies

Notes for Filling Vacancies

Vacancies due to any students dropping the courses will be filled with other students who register for the course in the order of precedence.

1. In the event of schedule conflicts, the course scheduled afterward for filling the vacancy will replace the original one.
2. Students whose credit number has reached the maximum for the semester will not be considered for filling the course vacancies.
3. If you don't wish to fill the vacancies, click "Give up" .
4. After all students on the waiting list have successfully registered for their intended courses, other students can add such courses through the system.
